1. SYNOPSIS

As we know the website are very much useful for the purpose of information as well as updating any such kind of things the day to day which are related to any field of the world. According to these purposes we have created an online shopping website. We may that; this website will become more useful. This website provides good interface and connectivity to users.

Our Travel Agency website is a Static Website. Our website contains mainly 5 to 7 web pages which are interlinked by the hyperlinks. First page is the Home Page. It displays various links to pages containing the details related to our travel agency. It also has Images and Hyperlinks which will direct take our customers to the page containing the details of various visiting places. All packages are budget friendly which attract users. This website will be a user friendly one for the convenience of our customers. We have tried to develop this website for user's easiness.

2.PREAMBLES

1.1 GENERAL INTRODUCTION
